- Robot Parts & Supplies
- Robot Repairs & Field
- T-Shirts & Uniforms
- Merchandise & Marketing
- Transportation
- Hotel Costs
- Reserve for Nationals

We are the Mandeville High School Robotics Team. Our goal is to encourage involvement in STEM (science, technology, engineering, and mathematics fields). We compete as FRC Team 2992 and FTC Team 8991, and are members of FIRST Robotics.

As a high school club, we are required to independently raise the entirety of our funding. We manage all aspects of our brand including financing.

The FIRST Robotics Competition (FRC) is a sophisticated technology-oriented competition, and thus has a high barrier cost of entry (fees in the range of \$6,000).

Overall, we try to raise \$29,000 so that we can continue to spread the word of FIRST and their mission.
